Dear Ms Henney:

5156 '99 MAY 21 P1:32

I urge you to ban the use of medically useful antibiotics in animal feed. Those of us who are old enough remember when doctors made such free use of antibiotics with ^{their} ~~the~~ patients the antibiotics were of no help when they were really needed.

Feeding antibiotics to cattle can only have the same disastrous result of promoting the growth of bacteria resistant to these antibiotics.

Yours truly,

Myra Silver
